

**Western  
Logistics**

*The Answer is YES!*

## Western Logistics Prepares for its Second 25 Years

Since 1990, Western Logistics has been blessed with support of the business furniture community, providing damage-free, quick, and responsive transportation services. Now, as we approach our 25th Anniversary and cover all of North America, we're delighted to announce a major transition of our management team, to prepare us for the next 25 years.

***Changing of the Guard: Domenic Russo, President, Mary Waring, CEO, and Bob Hartin, Founder/Chairman, celebrate the management transition of Western Logistics.***

"Western Logistics set out in 1990 to 'amaze and delight' the resellers of furniture," said Bob Hartin, Founder, "meaning that we planned to transport furniture the best way possible to eliminate damage and communications issues for both producers and dealers. Since then, we've moved ahead through good times and bad, to now cover all of North America, transporting nothing but furniture. It is a joy to have Domenic Russo come aboard -- a business friend whom Mary and I have known and respected for many years. The company will surely evolve aggressively and progressively in every way."

Mary Waring, now CEO of Western Logistics, added: "This day feels so right and fulfills the hopes and dreams Bob and I have had for many years. With Dom's operational strengths in place, we can now focus on further growth and development of our technology and service network to hopefully become the model of specialized furniture transportation over the next 25 years."

Domenic Russo, now President of Western Logistics, has spent his entire working life in office furniture logistics at the manufacturing level. "Taking the reins of Western Logistics is a dream come true for me. I've worked with Bob and Mary throughout the history of Western Logistics, and have observed every step of its development. It is both an honor and a challenge to take the reins of this idealistic company and to help it achieve the next phase of growth. Western Logistics is privileged to serve many fine clients in our unique niche. I can't wait to meet with them and to share our plans for the future."
